

MAYHEM

MAYHEM is not just a feisty femme fatal, she is a *lifestyle*.

You can see her core essence as a throwback to the 1980's glam rock where women didn't always mind their manners, and jammed out harder than the boys.

The females of this era ala the Joan Jetts, Lita Fords, and Stevie Nicks, were tough with a fiery spirit that exuded sexuality and bad-assness. This is what MAYHEM is all about.

The difference is... she takes this concept and makes it her own. In the musical dance trend that is sweeping the world's airwaves, MAYHEM makes her own original stamp by combining her rock edge with 'all the rage' Dance/Electronic beats. She takes these infectious driving dance beats that would rock out any club, and drenches them with the crunch of rock'n'roll power chords to add a *SIGNATURE SASS* that gives her an *EDGE* all her own.

MAYHEM's persona matches her musical flavor. As a girl who always knows what she wants, and usually gets it, MAYHEM embodies the spirit of a powerful female who demands respect. She commands the stage, as she is a born entertainer, and will dance her ass off while beautifully belting out all the notes to one of her rock/electro smashes. Just don't be surprised if she comes right to the front of stage, grabs you by the tie, and pulls you in to sing right to your face!
